

ALL ABOUT ISLANDS

**funky house
dj/producer duo**

All About Islands are two DJ/producers from Bermuda. In January 2024, they sold everything but the decks and began traveling the world, creating funky house music and playing around the world. Music is their home now!

In 2024, they had a Number 1 Traxsource Nu-Disco hit, a UK Club Top 10, a Beatport Top 3 Nu-Disco chart placing, and reached the iTunes Dance Charts in 19 countries, including a No. 1 in Colombia and a No. 3 in Russia. This year they have been collaborating with No1. Nu-Disco artist Block & Crown on various labels.

Lady E, the daughter of a preacher man, recalls her first religious experience at a church revival. She says, "It's the music that speaks through us, unifies us, and makes us whole." A professional dancer, percussionist, DJ, and globtrotter, she moved from NYC to Egypt, onto Spain, and landed in Bermuda. There, she teamed up with Felix, performing at clubs, boat parties, pool parties, Bermuda Pride events, drag brunches, and more.

Felix Tod was a top DJ in Bermuda for 10 years. Previously he owned a studio with Alan McGee during the Creation Records heyday and produced tracks with ATB, members of Supergrass and Suede. He also produced eight albums with Heather Nova, selling over two million copies. As a film composer, he earned two BAFTA nominations for BBC documentaries. Felix also hosted the breakfast radio show in Bermuda and led Bermuda's first 6,000-strong Pride Parade.
